# Support Scouting and Honor a Leader in Our Community!

## Front Line Hero Nominees

---

The mission of the Susquehanna Council, Boy Scouts of America is to prepare young men and women to make ethical and moral decisions over their lifetimes by instilling in them the positive values of the Scout Oath and Law. This is achieved through a leadership and hands-on program that includes aspects of health and safety, outdoor skills, environmental awareness, and STEM related fields of study.

Every year the Boy Scouts of America Susquehanna Council through a committee of committed volunteers select a Distinguished Citizen that embodies the Scout Oath and Law and has given their time and resources to make their community a better place for all. This year is a little different because in a time of uncertainty and need we have had many distinguished citizens step up to serve our community. So this year we are recognizing our Front Line Heroes as our 2020 Distinguished Citizens and invite you to recognize your favorite Front Line Hero.

Please nominate a Front Line Hero who you think deserves recognition during this unprecedented time. We'll celebrate his or her story in our Front Line Hero Book and through our media channels. These heroes do not have to be local, if you have a family member serving as a Front Line Hero, we will send their copy of their book to them.

This is a meaningful opportunity to not only recognize a family member, friend or someone who's made a difference as a Front Line Hero but also support a program that helps prepare the next generation of Front Line Heroes.
